About our Association

Established in 1948, the Wisconsin Asphalt Pavement Association (WAPA) is a Wisconsin nonprofit association representing the interests of the Hot Mix Asphalt (HMA) industry in Wisconsin. WAPA has 20 hot mix asphalt producer members and more than 80 associate members. The association represents members' interests regarding issues involving transportation, technology transfer, the environment and construction specifications. The association also works to educate professional engineers, government employees and the public about the latest advancements in HMA and the advantages and benefits of HMA.

Membership benefits

It is WAPA's mission to promote quality hot mix asphalt pavements which are safe, efficient and in the best interest of the customer. We are a group of professionals dedicated to making HMA the customer's preferred choice in pavement solutions through innovation, education and exceptional service. By becoming a member you will help support our efforts to continue to accomplish our mission, receive discounts to WAPA events and receive the following member benefits:

■ Access and connection to a network of industry leaders and fellow members.

Throughout the year you will have an opportunity to share issues and have discussions on successes and challenges in the HMA industry. Whether these discussions occur during our annual conference, at our regional meetings or the various WAPA Committee meetings, you will be able to share your ideas and learn

what other members are doing to address issues similar to the ones you are facing. You will receive a member registration discount to appropriate WAPA events.

■ An advocate on your behalf.

Whether it is an issue important to the Wisconsin HMA industry or, as appropriate, your company, WAPA staff will work with you to communicate our joint messages and advocate our joint positions.

■ A strong and influential association.

Your membership and financial support helps WAPA promote HMA and its use. Some of the means to accomplish this include: our annual and regional meetings, meetings with state and local staff, development and implementation of new and updated specifications, technology transfer, our various programs and partnerships with the universities.

■ Technical Assistance.

WAPA's technical assistance is available to work with you and your staff on issues related to HMA.

■ Marketing exposure for your company.

WAPA holds several events throughout the year with opportunities for your company to have additional exposure to decision makers in the transportation sector. Whether it is an exhibit booth at our annual conference or a sponsorship of one of our six regional meetings, you will have an opportunity to get your people and product/services in front of those who make purchasing decisions. In addition, your company name and information will appear on our website including a rotating exposure on our home page. Also, your company name will be listed in appropriate WAPA produced materials including the registration information for the annual conference.

■ Resources at your disposal.

Whether it is through our Black Bag Lunch and Learn Series or the latest national information on warm mix asphalt, WAPA will provide you with the information you need. Whatever information or assistance you need, we will do our best to deliver!
