

# THE BRIGHTEST IDEAS ARE IN ASPHALT

Visionary engineers and researchers are constantly innovating asphalt pavements to meet the needs of the future. They've created game-changing products like warm-mix asphalt and Thinlays for pavement preservation — and they're not done yet. The industry is already working on asphalt roads built to accommodate the safe use of driverless vehicles. This commitment to innovation is paving the way for even longer-lasting, higher-performing pavements.
