

BECAUSE SUSTAINABILITY IS A PRIORITY

# DRIVABILITY MATTERS

"When I bike to work or around town, I am getting exercise and reducing my impact on the environment. At work, I analyze the environmental impact of infrastructure, including roadways. Asphalt pavements are 100% recyclable and can be produced with energy-saving warm-mix technologies. That makes asphalt the sustainable choice, whether you are on two, four, or even 18 wheels. That matters."
